## What is this product?

### Type

The SICAV is a Luxembourg Investment company subject to the provisions of Part I of the Law of 17 December 2010, relating to undertakings for collective investment in transferable securities (UCITS).

### Term

There is no maturity date. The SICAV has been established for an unlimited period of time. Natam may terminate the SICAV and the Sub-Funds early, following the procedures described in §23 and §24 of the Prospectus.

### Objectives

**Investment objective** The objective of the Sub-Fund is to achieve an exposure to corporate bonds in order to take advantage from a conscious assumption of credit risk.

**Investment policies** Through discretionary choices and an active management, the Sub-Fund invests in fixed income transferable securities, at fixed and floating rate, issued mainly by European issuers.

It is permitted to invest in transferable securities issued by not rated issuers; under exceptional circumstances the Sub-Fund can be invested up to 5% in bonds with a minimum rating between C and CCC+ and maintain up to 3% of the net assets in securities subject to downgrade with a minimum rating "D".

The Sub-Fund may invest in credit derivative instruments, which will be mainly used for hedging purposes but, up to 15% of the net assets value of the Sub-Fund, can also be used for investment purposes.

Exchange rate risk is limited to 30% thanks to the hedging activity of the main currency positions against the Euro.

Derivative instruments, which are financial contracts whose value depends on the market price of a reference asset, can also be used for investment purposes provided that the total commitment does not exceed, at any moment, 100% of net asset value of the Sub-Fund.

The Sub-fund has been categorized as a financial product falling under the scope of Article 6 of the SFDR.

**Benchmark** 80% Bloomberg Barclays Euro-Agg Corp TR Index Eur (LECPREU) + 20% BCE euro short-term rate index (ESTCINDEX)

**Benchmark uses** The Sub-Fund is not intended to track the benchmark. The above indices are not used to define the asset allocation but only for the purpose of monitoring the return of the Sub-Fund.

The Investment manager may use its discretion to invest in financial instruments not included in the benchmark in order to take advantage of specific investment opportunities. This active management approach involves a deviation from the reference index which can be significant.

**Redemption and Dealing** Investors may redeem their shares on any business day for Luxembourg banks provided that the stock exchange in which the shares are tradable is open for trading and that it is possible to cope with the orders. They cannot switch their shares in those of another Sub-Fund and/or Class within the SICAV.

**Distribution Policy** All income is, normally, reinvested.

### Intended retail investor

This share class might not be suitable for all investors due to the sub-fund's characteristics. Suitable investors have a medium-term investment horizon, can bear the loss of the amount invested and do not have preference for products complying with ESG factors.

### Practical information

**Depository** The SICAV depository is State Street Bank International GmbH, Luxembourg branch.

**Further information** A copy of the Prospectus, the latest annual and semiannual financial report of New Millennium are available free of charge in English and Italian on the websites [www.natam.lu](http://www.natam.lu), [www.newmillenniumsicav.com](http://www.newmillenniumsicav.com) and at the registered office of the Fund (49, avenue J.F.Kennedy, L-1855 Luxembourg). The information contained in this document is specific to Augustum Corporate Bond. However, the Prospectus, annual and half-yearly reports are prepared for the SICAV as a whole.

The SICAV consists of separate Sub-Funds with segregated liabilities. This means that the assets of a Sub-Fund will not be available to meet the claims of a creditor made against another Sub-Fund.
