What is this product?

Type

The SICAV is a Luxembourg Investment company subject to the provisions of Part I of the Law of 17 December 2010, relating to undertakings for collective investment in transferable securities (UCITS).

Term

There is no maturity date. The SICAV has been established for an unlimited period of time. Natam may terminate the SICAV and the Sub-Funds early, following the procedures described in §23 and §24 of the Prospectus.

Objectives

Investment objective The objective of the Sub-Fund is to achieve higher results than those generally offered by money market instruments while maintaining a low risk level.

Investment policies The Sub-fund invests in bonds, both fixed and floating rate, issued mainly by European issuers. Bonds are mainly issued by Government and Supranational issuers of which at least 20% issued by Governments belonging to G8 countries and Supranational issuers. Investment in securities with no rating or with rating lower than "investment grade" is not allowed.

Exchange rate risk is limited to 20% of the net asset value thanks to the hedging against the Euro of the main currency positions.

Derivative instruments, which are financial contracts whose value depends on the market price of a reference asset, can be used also for investment purposes provided that the total commitment does not exceed, at any moment, 100% of net asset value; the investment in credit derivative instruments (i.e. Credit Default Swaps, Credit Spread Derivatives that allow two parties to exchange the credit risks specific to some issuers) is allowed only for hedging purposes.

The Sub-fund has been categorized as a financial product falling under the scope of Article 6 of the SFDR.

Benchmark 40% Bloomberg Barclays Eur-Agg Govt 1-3 Years TR Index Eur (LEG1TREU) + 30% BCE euro short-term rate index (ESTCINDX Index) + 30% Bloomberg Barclays Eur-Agg Govt TR Index Eur (LEEGTREU)

Benchmark uses The Sub-Fund is not intended to track the benchmark. The above indices are not used to define the asset allocation but only for the purpose of monitoring the return of the Sub-Fund.

The Investment manager may use its discretion to invest in financial instruments not included in the benchmark in order to take advantage of specific investment opportunities. This active management approach involves a deviation from the reference index which can be significant.

Redemption and Dealing Investors may redeem their shares on any business day for Luxembourg banks. They can also switch some or all their shares in those of another Sub-Fund and/or Class (with the exception of Class "L") within the SICAV without paying any extra fee.

Distribution Policy All income is, normally, reinvested.

Intended retail investor

This share class is intended for investors with a medium-term investment horizon, with a basic knowledge of the product, who can bear limited losses and do not have preference for products complying with ESG factors.

Practical information

Depository The SICAV depository is State Street Bank International GmbH, Luxembourg branch.

Further information A copy of the Prospectus, the latest annual and semiannual financial report of New Millennium are available free of charge in English and Italian on the websites www.natam.lu, www.newmillenniumsicav.com and at the registered office of the Fund (49, avenue J.F.Kennedy, L-1855 Luxembourg). Also the latest Net Asset Value per share are published on www.natam.lu and www.newmillenniumsicav.com

The information contained in this document is specific to Augustum High Quality Bond. However, the Prospectus, annual and half-yearly reports are prepared for the SICAV as a whole.

The SICAV consists of separate Sub-Funds with segregated liabilities. This means that the assets of a Sub-Fund will not be available to meet the claims of a creditor made against another Sub-Fund.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the

product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This means that potential losses due to the future performance of the product are rated a low level and that adverse market conditions are very unlikely to affect the sub-fund's ability to return the initial capital.

This product does not include any protection from future market performance so you could lose part or all your investment. The significant risks not detected by the synthetic indicator, are detailed in the "Main risk factors" section of the relevant Sub-Fund Appendix of the Prospectus.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between March 2016 and March 2020.

Moderate: this type of scenario occurred for an investment between October 2017 and October 2021.

Favourable: this type of scenario occurred for an investment between March 2020 and March 2024.

What happens if NATAM Management Company S.A. is unable to pay out?

In the event of Natam's insolvency, the assets of the SICAV will not be affected. The assets of the SICAV are held in safekeeping by the Depositary, that is required by law to segregate its own assets from the assets of the Sicav.

If the fund is not able to pay you out what is due, you may lose your entire investment. Losses are not covered by an investor's compensation or guaranteed scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

■ 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 4 years (recommended holding period)
Total Costs	480 EUR	1,019 EUR
Annual cost impact*	4.8%	2.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.5% before costs and -0.1% after costs.
