What is this product?

Type

The SICAV is a Luxembourg Investment company subject to the provisions of Part I of the Law of 17 December 2010, relating to undertakings for collective investment in transferable securities (UCITS).

Term

There is no maturity date. The SICAV has been established for an unlimited period of time. Natam may terminate the SICAV and the Sub-Funds early, following the procedures described in §23 and §24 of the Prospectus.

Objectives

Investment objective The objective of the Sub-Fund is to achieve positive net returns in excess of those which can be normally earned from risk-free financial investments, as constantly as possible and in any market condition, maintaining a moderate level of risk.

Investment policies In function of the different market conditions, the Sub-Fund has a wide power to dynamically change the various components of the portfolio which consists of:

- debt securities with an exposure between 20% and 100% of the total net assets; the investment will include warrants, corporate, government and convertible bond;

- equity securities with a maximum of 49%; within this limit investment in Special Purpose Acquisition Companies ("SPACs") is allowed up to 5% of the net assets only if they qualify as transferable securities;

- derivative instruments can be used for hedging and investment purposes provided that the total commitment (as defined under ESMA guidelines 10/788) does not exceed 100% of the net asset value.

Investment in fixed income instruments will be prevalently in investment grade instruments although a residual investment in not rated and non-investment grade securities is allowed, with an adequate diversification, up to 25% of the net asset value; under exceptional circumstances up to 5% of investments may be made in bonds with minimum rating between C and CCC+.

In order to mitigate the currency risk the main extra euro positions will be hedged against the Euro; unhedged position will not exceed 30% of the total net assets.

The "ESG features", according to art.8 of EU Regulation 2019/2088, are implemented through a two-level approach:

1. an average ESG rating of the portfolio determined as described in the Paragraph Disclosure on "ESG integration" practices which must be kept above the level of 70;

2. a set of specific restrictions and investment limits identified to promote sustainable investments.

The specific investment limits and environmental characteristics are detailed in the specific paragraph "Sustainability criteria in investment decisions" in Section II of the Prospectus.

Regarding the Taxonomy Regulation, the underlying investments do not take into account the EU criteria for environmentally sustainable economic activities.

Target 6 month Euribor + 300 bps

Target uses Discretion is allowed with respect to the target. The active approach, which characterizes the management of the fund, implies that the deviation from the target may be significant.

Redemption and Dealing Investors may redeem their shares on any business day for Luxembourg banks. They can also switch some or all their shares in those of another Sub-Fund and/or Class (with the exception of Class "L") within the SICAV without paying any extra fee.

Distribution Policy All income is, normally, reinvested.

Intended retail investor

This share class is intended for Institutional investors only, having a medium-term investment horizon.

Practical information

Depository The SICAV depository is State Street Bank International GmbH, Luxembourg branch.

Further information A copy of the Prospectus, the latest annual and semiannual financial report of New Millennium are available free of charge in English and Italian on the websites www.natam.lu, www.newmillenniumsicav.com and at the registered office of the Fund (49, avenue J.F.Kennedy, L-1855 Luxembourg). Also the latest Net Asset Value per share are published on www.natam.lu and www.newmillenniumsicav.com

The information contained in this document is specific to Total Return Flexible. However, the Prospectus, annual and half-yearly reports are prepared for the SICAV as a whole.

The SICAV consists of separate Sub-Funds with segregated liabilities. This means that the assets of a Sub-Fund will not be available to meet the claims of a creditor made against another Sub-Fund.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the

product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This means that potential losses due to the future performance of the product are rated a low level and that adverse market conditions are very unlikely to affect the sub-fund's ability to return the initial capital.

This product does not include any protection from future market performance so you could lose part or all your investment. The significant risks not detected by the synthetic indicator, are detailed in the "Main risk factors" section of the relevant Sub-Fund Appendix of the Prospectus.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between March 2016 and March 2020.

Moderate: this type of scenario occurred for an investment between November 2017 and November 2021.

Favourable: this type of scenario occurred for an investment between October 2020 and October 2024.

What happens if NATAM Management Company S.A. is unable to pay out?

In the event of Natam's insolvency, the assets of the SICAV will not be affected. The assets of the SICAV are held in safekeeping by the Depositary, that is required by law to segregate its own assets from the assets of the Sicav.

If the fund is not able to pay you out what is due, you may lose your entire investment. Losses are not covered by an investor's compensation or guaranteed scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 4 years (recommended holding period)
Total Costs	167 EUR	667 EUR
Annual cost impact*	1.7%	1.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.4% before costs and 0.7% after costs.

How long should I hold it and can I take money out early?

Recommended holding period: 4 years

The Recommended holding period (RHP) is 4 years but investors can request the redemption of their shares on any business day for Luxembourg banks without paying any redemption fee. The RHP has been selected on the basis of a quantitative and qualitative analysis considering the strategy, fees and the risk profile of the product.

Please note that the expected return is, anyway, not guaranteed.
